

Carlos and Elizabeth Diaz are the proud parents of three Naomi, Sefora and Ephriam. The Diaz family originated from South Florida. Because of their growing family they made the decision to move to South Carolina to have a better opportunity to raise their family in a home of their own. While settling in Greenville Carlos became the music director at Hampton Heights Baptist Church while also working at the Apple Store. Elizabeth (Lizzy) is a full time stay at home mother. The Diaz family loves to play music in their spare time in fact that is how Carlos and Elizabeth met while playing in a band. Lizzy plays the drums and

Carlos plays the guitar. The Diaz family also enjoys gardening, playing with their animals which consists of birds and baby ducks and cooking with fresh ingredients straight out of their garden. They are currently renting a home but have to face challenges of leaks, needing new windows amongst other necessary repairs. Unfortunately, most of those necessary repairs are never repaired due to the landlord living in another county and unable to fix their repairs. Carlos and Elizabeth heard about Habitat through the Housing Program Manager Jeanne Veron of the Urban League. They applied and were approved. The Diaz family is looking forward to owning their own home so that they are able to create deep roots for their growing family and to have a forever home. A place where they can continue their ministry and serve their community. They are most excited to have free range of how they want to decorate their new home and starting their garden. Over the process of becoming a homeowner Carlos and Elizabeth are so humbled and appreciative for Habitat giving them the chance to become homeowners.
